ERRATA SHEET
Fundamentals of Hydraulic Engineering Systems, 5th Edition

Page   Description

87   Replace (F_{P1}) with (P_1) in problem 3.3.4.

88   Problem 3.5.5; Replace the stated problem with the following:
        The commercial steel pipeline depicted in Figure P3.5.5 is 200 m long and has a diameter
        of 0.45 m. Determine the height of the water surface in the water tower (*h*) if the flow rate
        is 0.85 m^3/sec. Assume minor losses are negligible and a water temperature of 4˚C.

91   Problem 3.11.1; Replace 30º confusor with 40º confusor.

215   Figure 6.10; omit in associate table the row containing:

3.0	2.32

455   Problem 11.4.13; Replace "in." and "inch" in the problem with "cm."
